

Exam Coverage

DAT042-3 Machine Learning III - Unsupervised Models

Albert School

The following sections describe the topics covered by each of the three exams scheduled for this course.

Exam 1 — May 4, 2026

- Sessions 1 & 2 — Clustering
- Session 3 — Dimensionality reduction
- Session 4 — Anomaly detection

Exam 2 — May 11, 2026

- Sessions 1 & 2 — Clustering
- Session 3 — Dimensionality reduction
- Session 4 — Anomaly detection

Exam 3 — June 1, 2026

- All previous sessions (clustering, dimensionality reduction, anomaly detection)
- Session 6 — Production (MLOps)
